BANA

The brand's typography design was diversified between the use of soft joints and fish joints, to combine the concept of softness, tenderness, beauty and what belongs to the female, and the concept of strength of character, confidence and influence.

A large, textured, light-colored sphere, possibly made of stone or concrete, is the central focus. A vibrant green ribbon is tied around its middle, forming a handle. In the foreground, a white rectangular sign stands upright, featuring the word "BANA" in a bold, black, serif font. The background consists of a wall made of large, light-colored stone or concrete blocks, and the floor is also made of similar material. The lighting is dramatic, casting shadows and highlighting the textures of the sphere and the wall.
